

## Mission Statement

Driving professional practice to promote healthy living through self-management of diabetes and related conditions.

## Our Vision

To promote successful self-management for all people with diabetes and related conditions by improving opportunities for professional growth and development of diabetes educators. To foster communication among individuals and organizations involved in diabetes education.

## Membership

VTADE has over 60 members throughout the state of Vermont.

Our membership includes nurses, dietitians, pharmacists, physical therapists, and representatives from diabetes-related health care organizations:

- American Diabetes Association
- Vermont Department of Health
- Vermont Program for Quality in Health Care
- UVM Area Health Education Center (AHEC)
- and pharmaceutical companies.

## Activities of VTADE include:

Patient Education

Legislative Advocacy

Professional Continuing Education

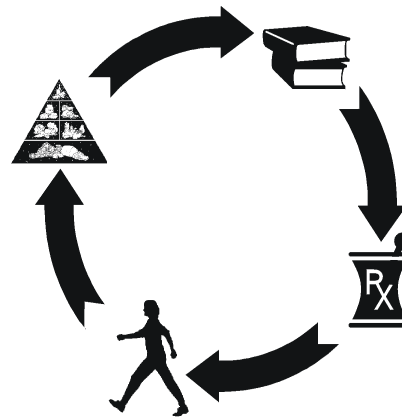

Updates on new products, research and treatment advances

Networking

Quality Improvement Programs

Collaboration with other diabetes initiatives:

- American Diabetes Association
- Northern Vermont AHEC
- Vermont Blueprint for Health

## Goals & Achievements

- Recipient of Centers for Disease Control (CDC) diabetes control grant to help reduce the burden of diabetes in Vermont
- Development of a statewide diabetes education system and curriculum with standardization of forms for referrals, assessment, documentation and follow-up
- Provide expert mentoring to new diabetes education programs
- Provide an annual Vermont Directory of diabetes education services
- Development of educational materials for patients and providers
- Create a public service announcement to promote diabetes education
